

Julio Davis

By Corrin Morris

My uncle owns a musical band called the J.Davis Trio. Me and him have a special liking for cats. His cats names are Misha and Natasha.

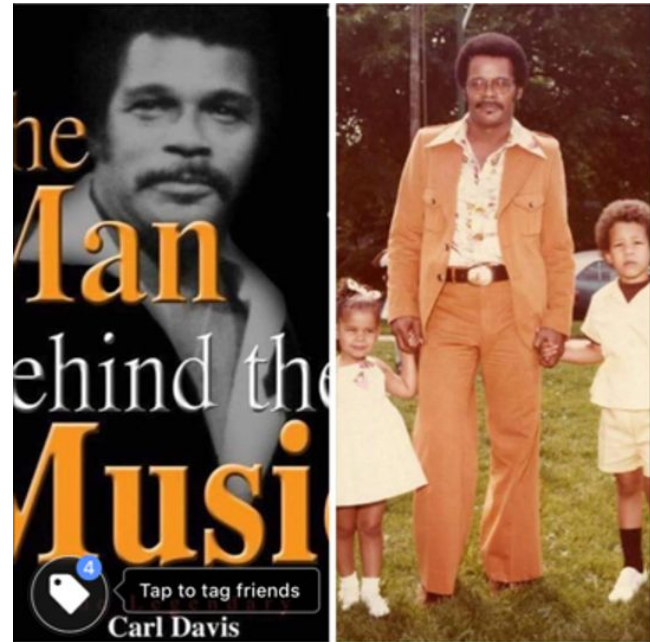

The music my uncle makes is similiar to Jazz.

My uncle began liking music when he was small. He used to dance to music while my grandpa recorded him

My uncle was born in Illinois. A definite inspiration to him would be his dad. He produced music and told him about music. Though my grandfather is now in heaven, he still inspires my uncle.

My uncle loves music.

I love him because he did many things. He makes me want to continue to love pets and to follow things I love.
